## **ALONE**

When things are going well in life we're happy as can be;  
We take so much for granted and seldom pause to see  
That we are not Alone!

Our days through life aren't always smooth, our troubles start out small;  
Perhaps a youngster fails a test, or has a play-yard fall...  
That child can feel Alone!

As we grow up it seems to us our problems grow up too;  
We lose a friend, perhaps a job, and don't know what to do...  
And we may feel Alone!

At some time in each human's life, they've lost a loved one dear,  
Or helped to reassure someone when sickness made them fear...  
So were we then Alone?

If a child is very ill we bring to God our cares,  
There may be no one else around to kneel with us in prayer...  
So are we now Alone?

What we must learn, as life goes on, is that our God above  
Will help us through life's worries--for He's a God of Love...  
We need never be Alone!

When we travel, work or play, at church, at home or far away,  
It matters not what time of day... God is with us all the way.  
Thanks be to God, we're not Alone!

Yes, for our sins our Saviour died... what greater love could be?  
And all we have to do is call, and there our Lord will be.  
**HE DIED FOR ALL "ALONE"!**
